Project.

Secretariat Report to Technical Group

Highlights from Melbourne Meeting

CSLF will no longer hold combined Annual Meetings of Policy Group and Technical Group.

- Technical Group will still meet twice each year.
- Policy Group meetings will be separate events, with the next one being held in conjunction with Clean Energy Ministerial meeting (at Vancouver, Canada in May 2019).

Secretariat Report to Technical Group

Actions and Outcomes from Melbourne PIRT Meeting

- The Ad Hoc Committee for Task Force Maximization and Knowledge Sharing was advised to continue with no firm end date. The Technical Group will provide specific direction and purpose.

Secretariat Report to Technical Group

Actions and Outcomes from Melbourne PIRT Meeting

- The CSLF Secretariat will notify delegates and stakeholders about new Technical Group reports and other important results.

Secretariat Report to Technical Group

Outcomes from Melbourne Technical Group Meeting

- Norway was re-elected as Technical Group Chair.
- Australia and Canada were re-elected as Technical Group Vice-Chairs.
- Japan was elected as Technical Group Vice-Chair, replacing South Africa.

Secretariat Report to Technical Group

Outcomes from Melbourne Technical Group Meeting

- Technical Group formed a new Task Force on Clusters, Hubs and Infrastructure to conduct initial “Phase 0” activities.
 - Task Force will review activities and presentations/reports since the previous CSLF Technology Roadmap was published in 2017.
 - Task Force will make a recommendation on whether or not to continue past this preliminary phase.
 - Task Force members include Norway (Chair), Australia, Brazil, Canada, and the United Kingdom.

Secretariat Report to Technical Group

Outcomes from Melbourne Technical Group Meeting

- The CCS for Energy Intensive Industries Task Force and the Improved Pore Space Utilisation Task Force are to present their final reports at next Technical Group meeting.
- The Non-EHR Utilization Options Task Force will present a set of recommendations at next Technical Group meeting.

Secretariat Report to Technical Group

Outcomes from Melbourne Technical Group Meeting

- Ad Hoc Committee for Task Force Maximization and Knowledge Sharing will continue its activities for the foreseeable future.
- General working mode going forward for collaborating with allied organizations will be to jointly produce overview reports, hold workshops, and engage in other similar activities. Ad Hoc Committee to work out practical implementation.

Secretariat Report to Technical Group

Outcomes from Melbourne Technical Group Meeting

- International Test Center Network will provide the Technical Group a list of specific recurring challenges that need to be addressed for specific CO₂ capture technologies.
- The IEAGHG and Norway's Technical Group delegation are leads for planning a joint CSLF-IEAGHG workshop themed on Hydrogen with CCS.

Secretariat Report to Technical Group

CSLF Recognized Projects

- As of April 2019: 55 recognized projects
 - 32 are active; 23 have been completed
 - Wide geographical distribution: projects are located on five different continents
 - <https://www.cslforum.org/cslf/Projects/Summaries>
- This meeting: No new projects proposed for CSLF recognition.
